

Hospital Services Limited

Using Zoom as your Virtual Healthcare Platform

Increase quality of care and build engagement with modern video communications.

A virtual healthcare platform is an efficient, effective mechanism in times of great public need but also for simplifying routine check-ups, prescription requests, and general care as hospitals prioritise resources and treatment. As an accredited Zoom solution provider, HSL specialise in getting the best from the technology – saving you time, effort and money.

HSL are able to build Zoom into your healthcare environment to provide benefits throughout many areas of your setting.

- ✓ Healthcare Administration
- ✓ Remote Diagnosis
- ✓ Ward Rounds
- ✓ Multidisciplinary Team Meetings
- ✓ Education Centres
- ✓ Virtual Kiosks
- ✓ Emergency Command Centres
- ✓ Virtual Consultations
- ✓ & many more...

Better meeting spaces. Better meetings with Zoom Rooms from HSL

Enhance Productivity in Rooms

Start meetings with one touch, share content wirelessly, all with HD video and audio.

Centralise Room Management

Monitor, analyze, and manage all your conference rooms from one single admin portal.

Set Up Any Room with Ease

Build the room you need with the hardware you want to work with Zoom's cloud platform.

What makes Zoom your first choice telehealth partner?

Unrivalled Integrations

Office 365, Google, and Exchange calendar integrations support room booking, room status, upcoming meetings list, and more.

Seamless & Adaptable

Bring high quality video, audio, and web conferencing to any sized room.

Present Wirelessly

Present content wirelessly from your laptop or mobile device with intelligent proximity one-click sharing.

Simple & Easy to Use

Use one touch to start an instant or scheduled meeting.

Admin dashboard provides real-time and historical reports of room usage, meetings, and devices.

Connect Cisco, Polycom, and other SIP or H.323 room systems with Zoom Conference Room Connector.

Assign rooms to different IT managers and also configure alerts that will notify the appropriate individuals when an issue occurs.

Push Zoom Rooms software updates and manage all deployed Zoom Rooms, Cisco, or Polycom rooms from a single admin portal.

Create collaborative, easy-to-use, and modern Zoom meeting spaces with flawless video and audio from HSL.

Video Communications for your Virtual Healthcare Platform

Improve Patient Care

Expedite hospital staff and specialist collaboration for patient care with real-time video communications.

Maximize Your Resources

Utilise resources and hardware you already have to expand your capabilities and telehealth offerings.

Boost Internal Communications

Faster collaboration and face-to-face meetings, trainings, and recruiting with participants in any location.

HD Video & Audio

HD video and audio provide exceptional clarity and quality for telehealth visits.

Treat Patients Anywhere

Patients may be treated virtually from anywhere, from any device, ensuring timely medical care.

Consistent Quality

Consistent high-quality video conferencing, even in low-bandwidth environments.

What makes Zoom your first choice telehealth partner?

Compliance and Security

Multi-layer security with AES-256 encryption.

Number 1 Used Video App

Means quicker roll out to patients, more familiarity and better outcomes.

Seamless Integration

Launch a video simply and easily through multiple telehealth workflows.

Accessible To All

Ensure that everyone can participate equitably with closed captioning and keyboard shortcuts.

With a simple to use interface, multi-layered security encryption and HD video and audio that's unrivalled - Zoom is the perfect partner for your Virtual Healthcare Platform.

Video Communications for Telehealth

Recording Session Review

Save your meetings for consultation and review (local desktop recording with signed BAA to enable HIPAA compliance for clinical application, or in the cloud for non-clinical applications).

Enhanced Collaboration

Collaborate with other doctors and specialists by annotating directly on the shared screen so that notations are visible to all attendees.

Medical Device Integrations

Examine and treat patients virtually with farend camera control, EHR and medical device integrations, and in telehealth carts.

i Zoom supports secure workflows for telehealth

PHOENIX CHILDREN'S Hospital

“Zoom provides us a secure connection – physician to physician, nurse to nurse, patient to social services.**”**

Rachel Dunagan

What does a **HSL video enabled** Healthcare setting look like? Let's take a look...

Improve Communications

Ensure timely internal communications between administrative and medical staff across the hospital.

Seamless Connections

Telehealth consultations connect physicians, patients, and specialists for regular or urgent care.

Education and Care

Progressive health education and preventative care for high-risk populations.

Ongoing Training

Cost-effective continuing education and ongoing training for healthcare professionals.

Immediate, Global Comms

Widespread, immediate coordination and real-time assessment for disaster response.

Widespread Accessibility

Provide virtual behavioral and mental health in 1-1 or group sessions that patients may join from their homes.

Does your Healthcare setting need a frictionless video experience on desktop, mobile or conference room?
